& POCKET SIZE VERSION**

Upper Cervical Talk!

*Head/Neck misalignment interference at the top of the neck
can disrupt or distort
the flow of brain health and healing messages to the body and
allow health problems to develop.*

Upper Cervical Talk!

Efficient Brain to Body Communication is the key to Optimal Health and Longevity!

Upper Cervical Talk!

Upper Cervical Misalignment could be the Root Cause of countless health problems because so many different problems have responded to the Upper Cervical Corrective procedure.

Upper Cervical Talk!

Inefficient brain to body communication can allow health problems to develop.

Upper Cervical Talk!

That part of the body that cannot communicate efficiently with the brain, due to misalignment interference at the top of the neck, will begin to develop health problems.

Upper Cervical Talk!

Health problems will remain until efficient brain to body communication is restored.

Upper Cervical Talk!

The Upper Cervical Corrective Procedure is designed to restore head/neck alignment, remove interference at the top of the neck and reactivate efficient brain to body communication so the body's natural self healing process can begin

Upper Cervical Talk!

The body's natural self-healing process will continue as long as the Upper Cervical Alignment is maintained so the brain can communicate with all parts of the body without interference.

Upper Cervical Talk!

It is important for patients to understand what Upper Cervical doctors do and why it can be effective with most health problems.

Upper Cervical Talk!

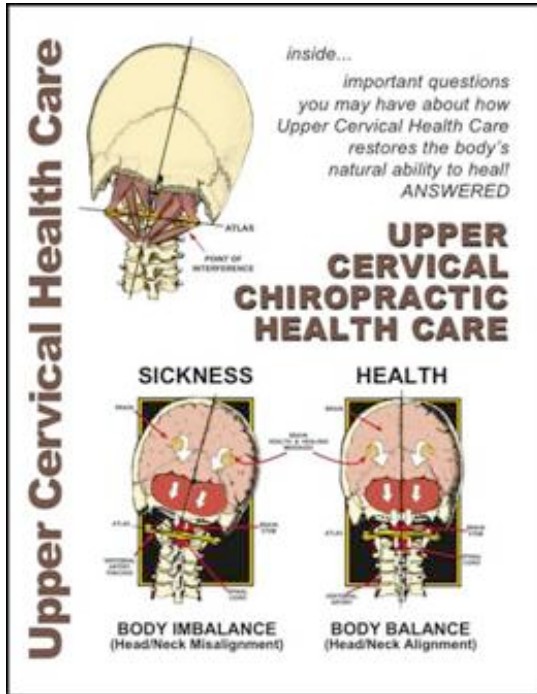

The long term benefit of patient education is invaluable. It can be directly responsible for referrals for weeks, months or even years.

One new patient added to your practice will more than cover the cost of 200 "New Patient Guide Booklets" while educating 200 prospective patients.

Our Objective

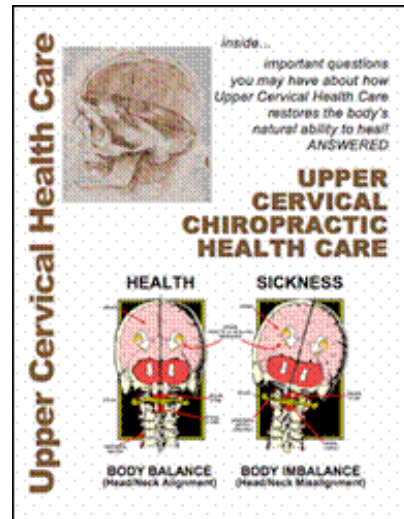

Use Upper Cervical terminology that is logical and easy for patients

to understand and explain.
