**Upper Cervical Patient Education Made Simple**

## Upper Cervical Corrective Health Care

### Upper Cervical Corrective Health Care at its Best!

Head Tilt can cause Interference at the top of the neck and disrupt the flow of brain health and healing messages, allowing health problems to develop in the body.

Head tilt precedes pain and sickness.

Muscles of the neck can hold the head in a tilt position and disrupt or distort the efficient flow of brain messages to the body.

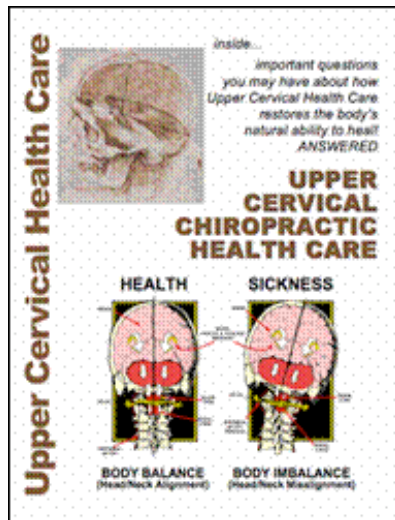

Most people experience head tilt without ever knowing it.

Unrestricted flow of brain health and healing messages to all parts of the body is Upper Cervical Corrective Health Care at its BEST!!!

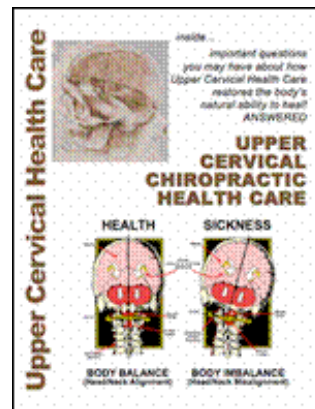

This is the **ULTIMATE** In total wellness for both children and adults!

See our New Patient Guide Booklets:  
 They explain with pictures and text the effects of head tilt  
 and how Upper Cervical Care corrects it.

Standard Size #0094 ( 8 1/2 x 11)

Pocket Size #0095 (5 1/2 x 8 1/2 )
